Dear JH Families,

Today we received the official word from Governor Whitmer that school buildings will remain closed for the remainder of the school year. Each school district in Michigan has to make a plan to continue educating their students. We will be taking time over the next several days to discuss options for our students and gather information from our families on internet connectivity, computer access, and more. We will be working diligently alongside the FEA to ensure that each and every student has access to material. We know that there will be a lot of questions, and we are working hard to anticipate those questions and provide answers.

There are still a lot of decisions to make and logistics to work out. We appreciate your understanding and your support. We know that we will have to be flexible, compassionate, and creative as we move forward. We are all in this together!

Please stay tuned for more updates soon.

Sincerely,

Myriah Lillie

Principal
