See You Next Year!

Last day of school:
Friday, December 22

Classes Resume
Tuesday, January 8

Poinsettias

The beautiful red plants you see a lot of this time of year are called "poinsettias." They are named after an American diplomat, Joel Poinsett, who brought the plants to our country from their native Mexico in 1828. The red parts are not really flowers, but leaves – the flowers are the tiny gold buds in the center. In nature, poinsettias can grow up to 10 feet tall!
